Industrial Automation & Control

Controls Specialist- From the very inception of Eastern Technical Services, we have been immersed in the world of industrial controls. Our knowledge and experience extends far beyond our ability to read the prints and install the system. Our team of electricians and engineers can handle any aspect of an industrial control project. We have the knowhow to assist you from conceptual design specifications to a completed installation and startup. We can provide turn-key solutions, installation only, or anything in between. Here are just a few of the services we offer:

- Specification Writing Assistance
- Control Systems Design
- Complete Drawing Packages
- PLC and HMI Selection
- Motor Sizing and Selection
- VFD or Soft Start Drives Selection
- Troubleshooting & Analysis
- Electrical Project Management
- Complete Electrical Installation
- Custom Panel Building
- Drive Package Installation
- Motor Control Center Installation
- Instrumentation Installation
- Troubleshooting & Repair

Panel Building - Eastern Technical Services can provide custom built electrical panels to meet your facility's needs. Whether it's an Operator Console, PLC, VFD or any type of electrical panel, we've got you covered. We can even provide custom designed enclosures that meet or exceed NEMA ratings.

Documentation - At Eastern Technical Services we understand that quality documentation is essential to a successful project and it shows. Design, Construction, Redline, and As Built, we strive to provide the most concise and accurate documentation in the industry.
